My dear Mr. Hoover:

I am writing this letter to recommend Mr. C.
Dekle DeLoach of Claxton, Georgia.

Mr. DeLoach received the Bachelor of Arts degree from John B. Stetson University on June 1, 1942. In his academic work he was an honor roll student. He has completed one year of work in the Stetson University College of Law. He was on the honor roll in the Law School. He did exceptionally fine work in Criminal Law. In addition to his excellent academic record, Mr. DeLoach was a leader in extra-curricular activities-- varsity football and intramurals, debating and public speaking. He was also an officer in his fraternity.

He is a young man of the highest character and ideals, honest, straightforward, hard working, dependable. He has the highest respect of his fellow students and of his teachers in this Institution. He is thoroughly loyal to American ideals.

It gives me pleasure to recommend Mr. DeLoach without any reservation whatsoever.

Very sincerely,

June 6, 1942

Honorable J. Edgar Hoover
Director, Bureau of Investigation
Washington, D. C.

Dear Mr. Hoover:

Mr. Cartha Dekle DeLoach, of Claxton, Georgia, my home town, is sending you herewith application for position with the Federal Bureau of Investigation for appointment as special agent.

This young man's father died when he was just a child and it has been necessary that he fight his way through school. What education he has today is largely the result of his own efforts. From an examination of his application, you will see that he has made an unusually fine record.

I am not undertaking to go into his educational record, as his application will give you detailed information as to that; however, he advises me that this year he passed with highest honors in his work at Stetson University, at Deland, Florida. I believe that his application is entitled to your very serious consideration and I will greatly appreciate it if you are able to place him. I do not know a single young man from my section who has accomplished so much, considering the handicaps under which he labored, and I haven't the slightest hesitancy in recommending him most highly from the standpoint of character.

Thanking you for your consideration of this matter, and with best wishes, I am

Sincerely yours,

Notes for Examining Physician

WEIGHT.—Males, without clothing, and also in ordinary clothing without overcoat or hat (weigh twice); females, clothed, but without wrap or hat. If overweight, state whether due to bone and muscle or to fat.

HEIGHT.—Without boots or shoes; observe that no appliances are used to increase.
The examination should include the following observations:

1. **Eyes.**—Ptosis; discharge; corneal scar; pterygium. In recording distant vision consider 20 feet as normal and report all vision as a fraction with 20 feet as numerator and the smallest type read at 20 feet as denominator. If glasses are used, record for each eye the finding with and without glasses. Near vision must be reported. In testing vision without glasses the applicant or appointee should be instructed to remove the glasses at least one-half hour before testing uncorrected vision.

2. **Ears.**—Evidence of middle ear or mastoid disease; condition of drums; discharge. In recording hearing, record 20 feet as normal distance for conversational voice and record deviation from normal as fraction with 20 as denominator and actual distance as numerator.

3. **Nose.**—Ability to blow through each nostril. If free, a speculum examination would not be indicated.

4. **Mouth and throat.**—Missing teeth, pyorrhea; tonsils, hypertrophy or disease.

5. **Gastro-intestinal.**—Ulcers, inflammations, etc.

6. **Thyroid.**—Presence of tumor in neck and tremor, exophthalmos; nervous high-strung disposition, especially in women.

7. **Heart.**—Murmurs. State whether functional or organic. If valvular disease exists, state whether or not it is fully compensated. Arteriosclerosis.

8. **Lungs.**—It is necessary that the auscultatory cough be used. If tuberculosis is present, state whether active or arrested; if arrested, state your opinion as to how long it has been quiescent. Sputum to be examined for tubercle bacilli in all suspected cases.

9. **Hernia.**—Give details as to size, location, etc., and whether well-fitting truss is worn. Inguinal hernia exists when ring is enlarged and on coughing visceral impulse is felt which follows the finger on withdrawal.

10. **Varicocele.**—If varicocele is present, state approximate size—e. g., size of walnut, lemon, etc.

11. **Flat foot** of such a nature as to incapacitate or become aggravated by work or be alleged later to have been caused by accident or occupation. By "flat foot," as used in this form, is meant a weak foot with impaired function, the term being equivalent to "fallen or misplaced arch," an abnormal condition. Impairment of function is the point to be noted. An anatomically flat foot, but strong, is not disqualifying.

12 and 13. **Scars, deformities, atrophies, and paralyses** should be noted, but it is not important that small insignificant scars or blemishes which might be referred to as marks of identification be recorded.

14. This entry should include symptoms and full history of any mental or nervous abnormality.

15. **Urinalysis** to be made in case of persons over 40, and in all cases where arteriosclerosis, nephritis, or diabetes is suspected.

Re: CARTHA DEKLE DeLOACH
APPLICANT - CLERK
Bureau file #67-338728

Dear Sir:

The applicant was interviewed at the Savannah Office on June 26, 1942, by Special Agent W. L. THOMPSON. The applicant advised that he registered with Local Board 2, Volusia, Florida, on February 16, 1942, but that he is presently under the jurisdiction of Local Board 1, Claxton, Georgia. He had his registration card but did not have his classification card. He advised that he has been given a deferment until September 1, 1942, due to the fact that he is enrolled in the law school at Stetson University, Deland, Florida, for a term which will be completed on the first of September. He stated that he is in classification 1A at the present time.

The applicant, who will be 22 years of age in July, presents a very favorable impression, is tall, clean cut, has a pleasing personality, and seemed to be in good health. Applicant advised that in the event he is employed by the Bureau he would be perfectly willing to work in Washington, D. C., in fact he prefers employment in that city to any other city in the United States. His attitude toward military service was favorable.

The hours of work and possibility of overtime were explained to the applicant, who stated that they were agreeable. He stated that neither he nor any member of his family has ever been arrested or have engaged in subversive activities.

In view of the favorable impression made by the applicant and his educational background, he is recommended for the position as Clerk to the Bureau.

Mr. J. Edgar Hoover,

Dear Sir:

In connection with an interview at the Savannah Field Division Office of the Federal Bureau of Investigation I was advised to communicate with the headquarters office in Washington concerning an appointment to a position in this Bureau.

I received a notice from the Savannah Office some four weeks ago to report for an interview and physical examination in Savannah on the 26th of June. I was told at that time that I had passed the physical examination successfully, and would be notified later from Washington concerning an appointment.

I have an A.B. degree from Stetson University, Deland, Florida, and for the past year and two months have been enrolled in the College of Law making a special study of the subjects of Criminology and Constitutional Law. I have been an Honor Roll student since entering the College of Law and have been keenly interested in the subjects mentioned above. In athletics I have been a member of the Varsity Football and Boxing teams.

Due to the fact that I have yet several months work to complete requirements for an LLB degree, my application was for the position of clerk in the Bureau. I had hoped to finish in Law by attending night school in Washington. If I'm not mistaken, I believe that Judge J.S. Daniel, U.S. District Attorney in Savannah, Georgia, has corresponded with you concerning my educational status, character, and desires, to enter the Federal Bureau of Investigation.

I would deeply appreciate any information that you could give me along this line.

Respectfully yours,

45 Day Report

8-31-42

The above employee has completed forty-five days' assignment in the Bureau as a Messenger. Mr. DeLoach has acted in a supervisory capacity in directing the work of the Messenger Force of the Midnight Hours in the Identification Division.

This employee has handled his duties quite well and has proven himself capable of accepting responsibility. He is courteous, attentive, alert, and intelligent. He has the ability to think for himself and can be relied upon.

DeLoach presents a neat appearance and it is my opinion that he should develop into a better than average employee.

The above-named employee contacted me this morning and stated that he had received information from his mother, to the effect that he would probably receive an induction notice from his Local Board in the near future. His mother had obtained this information indirectly from the Chief Clerk of the Local Board; and, at the time that she talked to this Chief Clerk, he also indicated to her that if the Bureau would request deferment for De Loach, that in all probability it would be granted. De Loach was classified as 1-A before entering on duty in the Bureau as a messenger, and has been recently training in the Technical Section as a Student Fingerprint Classifier, since October 26 of this year. His Local Board is No. 1, Evans County, Claxton, Georgia.

I advised De Loach to contact Miss Phelan in regard to this matter.

MEMORANDUM FOR MR. GLAVIN

RE: **CARTHA DEKLE DELOACH**
Bureau Employee

207

The above captioned individual called on me today and indicated that he was classified 1-A in the draft, and he also stated that he was presently employed in the Fingerprint Division, and had been there for about a month. He indicated that he had been advised by Mr. Keefer that the bureau would not request deferment in his case ~~because~~ inasmuch as he had been in the bureau since August 31, 1942, he had not been in the Fingerprint Division long enough to justify such a request. He wondered if he were qualified as a Special Agent, pointing out that he has an A. B. Degree and has at least 20 hours law which he feels would be acceptable in any law school in this country. He also pointed out that he had spoken to Mr. Tracy who indicated that his only opportunity to remain in the bureau was to become a Special Agent, which of course would mean serving 6 months in the bureau, providing his law credits were acceptable. I told him that nothing could be done at the present time in view of his requirements; however, I indicated to him that I would call this matter to your attention and discuss it with you and give him definite satisfaction at a later date. In the meantime I suggested that he should secure some evidence from one of the law schools in town to the fact that his course was acceptable to them, in which case we would consider him qualified and permit him to take the examination.

He gave me the attached letter from the Selective Service and indicated to the writer that the board would be very favorable in deferring him. He stated that it would not be necessary to have a form, but that a mere letter from the near future and that his services were indispensable would be sufficient.

Dear Sir:

After an opportunity of conferring with two members of the Local Board, I wired you today as follows: "You not in call before January (1943) board agreeable to deferment if asked for. Request Hoover to ask. Letter follows".

Do you happen to know about when you will have been in your present studies before the Department will be justifiable in asking for your deferment? the board members are desirous of seeing you get what you want and have so indicated this by their actions in the past, however they have certain rules Etc. from State Headquarters which they must consider and abide by in a reasonable manner and I am sure that it is their wishes to allow sufficient time for you to advance far enough that Mr. Hoover will be justified in requesting deferment.

Advise us just what your status is. In the event that you should decide to join some particular branch of the Armed Forces that will also meet approval of the local board.

Yours very truly,

I talked to this employee with reference to his draft status and also with reference to his desire to become a Special Agent. He advised that on November 4 he was advised he could get an appointment as an ensign in the Navy and that he did advise the Chief Clerk's Office of the receipt of a letter from the Navy Department in this regard that he could enlist as of December 10. He stated he would see Mr. Lee to see if he could possibly meet the qualifications for the position of Special Agent, otherwise, he was of the opinion he should resign and go in the Navy.

Honorable J. Edgar Hoover, Director

Dear Mr. Hoover:

Thank you for your letter advising me of the appointment of Cartha Dekle DeLoach as Special Agent in the Federal Bureau of Investigation. I greatly appreciate your interest in this boy.

It happens that Dekle and my son were babies at the same time, and his parents were our close neighbors. While he was a very small child his father died and it became necessary that he scuffle along for an education and to make his own way in life. He has worked hard and behaved himself well, and I was naturally very much interested in seeing him do well. You will, therefore, understand my especial interest in him. I believe you will not regret having given him this appointment.

Again thanking you, and with best wishes,

Sincerely yours,

Cartha Dekle

Gentlemen:

Reference is made to the Selective Service case of Mr. Cartha D. Deloach, who is duly registered at your Board as Order Number 10005.

I desire to advise you that due to his increased technical knowledge which makes it possible to better utilize his services in our highly skilled investigative staff, he was appointed as a Special Agent of this Bureau on December 14, 1942. Form 42-A (Revised) executed by me under date of December 23, 1942, reflecting Mr. Deloach to be a Special Agent of this Bureau and requesting appropriate deferment for him. Please be assured that it is my desire to cooperate with your Board in every possible way, and should there be any additional information you may require with regard to this case, please do not hesitate to call upon me. INSTRUCTIONS: This form is to be filled out by an employer or other person who has knowledge of the registrant's eligibility for Class II deferment as a necessary man in his civilian occupation or activity. *If the registrant is deferred, the employer must notify the Local Board promptly of any change in the registrant's job status, or if his employment is terminated.*

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. This Bureau has also been designated by Congress as the agency officially responsible for the tabulation and dissemination of police statistics for the entire country. Under an act of Congress these statistics are gathered and are distributed to thousands of interested police and affiliated agencies every six months so that trends in crime, crime records, and crime control can be known to those to whom it is of most interest. Further than this, the Federal Bureau of Investigation has been designated as the agency having jurisdiction over the classification and maintenance of fingerprint records not only on a national basis but on an international basis. The greatest depository of fingerprint records in the world is maintained by the Federal Bureau of Investigation in Washington, D. C. We have over fifty-seven million sets of fingerprints on hand today and are receiving fingerprint records at a rate of approximately 115,000 each day. The military and naval authorities have issued orders that all employees of manufacturing plants operating under contracts with the War Department or Navy Department must be fingerprinted and their fingerprints sent to the Federal Bureau of Investigation for search against our existing files. Obviously the purpose of such an order is to ascertain the criminal background, if any, of persons who are occupying positions where they have access to confidential information and to eliminate from such positions those persons whose records indicate that their interests are not those of our government.

We are also receiving fingerprint records of all persons enlisting or being inducted into the army and other military and naval services. All employees of the Federal government are fingerprinted and their fingerprints searched through our files for prior criminal records, again for the purpose of guarding against the employment of persons in the Federal government whose backgrounds indicate that they might not function to the best interests of our government. We are receiving thousands of criminal fingerprints from all police agencies throughout the country and it is essential that these fingerprints be handled promptly and the contributing agency advised of any prior record so that justice may be intelligently administered. By means of this procedure the Federal Bureau of Investigation is able to identify thousands of fugitives from justice each year who otherwise might not be identified by local police agencies who do not have the benefit of prior criminal records as reflected on fingerprint cards which were made at the time of some previous arrest. Many such persons are wanted for a previous criminal act by some other law enforcement agency and are presently attempting to disguise their true identity through assuming a fictitious name. This ruse on their part is penetrated through the science of fingerprinting and the Federal Bureau of Investigation is enabled to advise the interested local law enforcement agency of the true identity of the individual and he can be held for appropriate prosecutive action, whereas if not identified, he quite possibly would have been released to continue his depredations against society.

Our criminological laboratory handles the scientific examination of evidence in cases investigated by the Federal and local law enforcement agencies. A very high percentage of the work presently being performed by the Technical Laboratory is in connection with the national war effort. Evidence collected in suspected sabotage cases is examined by the scientists in our laboratory who are qualified to handle examinations of almost any technical nature. The personnel in the Technical

Laboratory have been trained through education and experience to handle such subjects as analytical chemistry, qualitative and quantitative analysis, ballistics tests, microanalysis examinations, spectrographic examinations, cryptograph and cryptanalysis work, and many other highly technical examinations.

The Files Section of the Federal Bureau of Investigation contains files on hundreds of thousands of individuals whose activities are of the greatest importance to the country today. It is highly important that we maintain in the Files Section a nucleus of experienced personnel so that the information contained therein can be made readily available to the supervisory personnel of this Bureau and also be made available to other governmental agencies such as the State Department, Military Intelligence Division, Office of Naval Intelligence, and the Immigration and Naturalization service. It is most essential that only the most trusted employees be assigned to this work because of the highly confidential material that is contained in our files.

All of the functions of the Federal Bureau of Investigation are so closely inter-related that it is essential that qualified and experienced personnel be available not only to perform their own work but to train new employees. The Congress of the United States has passed several bills within the past year approving an increase in the personnel. When it is considered that the work of this Bureau is highly confidential it can be appreciated that the selection of personnel must be made with great care. It has been our experience that only one employee is obtained from every one hundred persons who have applied. It is necessary that each employee be investigated thoroughly so that there will be no possibility of having a person in our service who is not loyal to the United States. We have found that it is extremely difficult to secure qualified persons for almost any of the positions that are available. At the present time we have approximately 1,500 employees less than the number that has been authorized by Congress. Every effort is being made to obtain these additional employees as they are badly needed in order for us to properly carry on the work that has been assigned to us. We are endeavoring to obtain these additional persons without interfering in any way with the administration of the Selective Training and Service Act. In all positions where possible we are utilizing the services of female employees. With the exception of Special Agents' and Laboratory Scientists' positions, no appointment of male employees who may be eligible for military service are being made. It is absolutely necessary, however, that our experienced personnel be maintained so that the new personnel can be adequately supervised and trained.

All employees of the Federal Bureau of Investigation have been working at top speed to keep abreast of our duties. The regular work week has been extended to 44 hours, and in addition to that, employees are performing a tremendous amount of overtime and no compensation whatever is paid for the overtime service performed. Our Special Agent investigators are performing no less than four hours a day overtime service and the clerical personnel is performing between one and two hours a day overtime service. Obviously very little consideration can be given to replacing an experienced employee until such time as we are able to build up our present staff to the number authorized and needed.

Special Agents of the Federal Bureau of Investigation are given twelve weeks of training which embraces 535 hours of study. During that period of time they are trained not only in investigative techniques and procedures, but are qualified in the handling of firearms, mechanical devices, and technical devices in use by the Bureau. After entering the Field service which follows their training period, their skill of course increases with their length of service in the Field. It would

obviously, therefore, be impossible to adequately replace an experienced Special Agent until the replacement had been in the service an equal length of time.

The science of the classification of fingerprints is one of the most exacting in the world today. Employees in law enforcement organizations handling fingerprint activities are of a profession which demands the utmost skill and honesty in the practice of that profession. In the Federal Bureau of Investigation we train Fingerprint Technicians through classroom and practical study for a period of approximately six months. At the end of that time those employees are qualified to examine sets of fingerprints and to identify like sets. This science cannot be taught overnight and the loss of a fingerprint man at any stage of his training or employment is a severe blow to the Federal Bureau of Investigation at this time when we are receiving thousands of sets of prints from all of the coordinated activities of the Government and from local law enforcement agencies.

The Laboratory Scientists of the Federal Bureau of Investigation, all graduate scientists, are thoroughly schooled in the science of criminology and today are performing duties pertaining to the successful war effort one hundred percent of their time. Their training in this field, embracing all sciences of laboratory examination which includes cryptography, chemistry, ballistics, geology, serology, and many others, has been invaluable in the solving of espionage, sabotage, and other subversive activities. It is essential that these scientists many times perform their scientific work in the field under such conditions that they could not be replaced with employees not possessing their physical attributes.

Bureau employees in positions aforementioned and for whom deferments are requested possess technical and scientific skills which renders them irreplaceable to the Federal Bureau of Investigation at this time.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Subscribed and sworn to before me this 23rd day of December 19 42.

Re: CARTHA D. DeLOACH
SPECIAL AGENT

Dear Sir:

Reference is made to the letter from the Bureau dated December 30, 1942, to the Selective Service Board at Claxton, Georgia.

Please be advised that Special Agent JAMES E. GORDON has contacted W. L. EDWARDS, clerk of the Board. The chairman of the board, P. L. ANDERSON, was not contacted due to the fact that he was out of town on the day that the inquiry in regard to Special Agent DeLOACH'S classification was made.

Mr. EDWARDS stated that the Board had placed Special Agent DeLOACH in class 2-B on January 6, 1943. The members of the Board are personally acquainted with Agent DeLOACH and have the highest regard for him, according to Mr. EDWARDS, and were very pleased to learn that he was connected with such a fine organization as the Bureau. Mr. EDWARDS does not believe that the Selective Service Board will remove Agent DeLOACH from a deferred classification while he is connected with the Bureau.

Very truly yours,

 EDUCATION - A.B., 1942, Stetson University
 PREVIOUS EXPERIENCE - Navy material inspector; FBI Fingerprint Classifier

DeLOACH was born at Claxton, Georgia where he has lived all of his life with the exception of the years he spent in attendance at John B. Stetson University at DeLand, Florida. He majored in history and languages during his first three years of attendance at Stetson University and during his fourth year he completed 36 hours of legal courses. Following his graduation from Stetson University he entered the employ of the U.S. Navy Department as a material inspector at the U.S. Naval Air Station at DeLand, Florida. He was so employed for approximately two months. On August 31, 1942 he entered the employ of the Bureau as a senior fingerprint classifier and was working in the Technical Section of the Identification Division when he accepted appointment as a Special Agent. He has had no previous investigative experience. He advises that he has a slight reading knowledge of French. He is very enthusiastic about his prospects of being a Special Agent and it is believed that he will exert every effort to succeed. He definitely needs contacts to round him out. With a little more than average supervision he should develop into a good agent.

This efficiency report as to Special Agent DELOACH is being submitted in view of the writer's transfer from the Norfolk Field Division.

This Agent has been under the supervision of the writer since March 30, 1943. He presents a neat appearance, and is very personable. He is above the average in aggressiveness and resourcefulness, and accomplishes a good volume of work. He is very interested in the work of the Bureau, and for an Agent of his experience exhibits a good knowledge of the Bureau's jurisdiction and functions.

Mr. DeLOACH is considered a good dictator, although somewhat slow at times. It is believed that he will improve in this respect with continued experience. He can operate an automobile satisfactorily. There has been no opportunity to observe him on the witness stand, but it is believed that his conduct in this respect would be satisfactory. There has been no opportunity to observe him in the use of the Bureau's firearms, but with additional experience in the Bureau, it is believed that there will be no question as to his ability to handle dangerous assignments. He has operated successfully on physical surveillances. He can operate a typewriter. His reports require close supervision with respect to organization and preparation, but his ability in this respect is improving. His contacts with law enforcement officials and with the public generally are quite satisfactory. His ability to organize and initiate investigations is average for an Agent of his experience.

Agent DeLOACH has been assigned to both national defense and criminal investigations, and he has handled his investigations well.

He has exhibited no evidence of supervisory or administrative ability at this time.

He has performed more than an average amount of overtime.

With respect to Mr. DeLOACH'S availability for SIS assignment, it is to be noted that he is single. I know of no special qualifications that he possesses, although it is believed that he should not be considered for SIS assignment until he has had additional investigative experience.

DeLoach was born at Claxton, Georgia where he has lived all of his life with the exception of the years he spent in attendance at John B. Stetson University at Deland, Florida. He majored in history and languages during his first three years of attendance at Stetson University and during his fourth year he completed 36 hours of legal courses. Following his graduation from Stetson University he entered the employ of the U.S. Navy Department as a material inspector at the U. S. Naval Air Station at Deland, Florida. He was so employed for approximately two months. On August 31, 1942 he entered the employ of the Bureau as a senior fingerprint classifier and was working in the Technical Section of the Identification Division when he accepted appointment as a Special Agent. He has had no previous investigative experience. He advises that he has a slight reading knowledge of French. During his attendance at Stetson University he played on the

DeLoach is average in height and rugged and athletic in build. He presents a good, youthful appearance and he possesses a likable friendly personality. He talks with a southern accent. He was a trifle slow in absorbing the course material at the outset of his training, but since has absorbed the material in a satisfactory manner. He is sincere, conscientious and it is believed that he is reliable. He is very enthusiastic about his prospects of being a Special Agent and it is believed that he will exert every effort to succeed. He definitely needs contacts to round him out. With a little more than average supervision he should develop into a good agent.

The Special Agent in Charge of Firearms has certified that this agent is qualified in the use of all Bureau firearms.

Very truly yours,

RE-TRAINING

Re Training

EOD 12-14-42

The following is the special 60-day efficiency rating for Special Agent CARTHA D. DeLOACH, who reported to the Norfolk Field Division from Training School on April 27, 1943.

This Agent presents a good appearance, dresses neatly, and has a good personality. He is energetic, forceful, and is developing rapidly. He has a definite interest in his work, and it is felt that he is entirely loyal to the Bureau.

This Agent is rated as a good dictator by the stenographers of this office. He operates an automobile satisfactorily, and while there has been no occasion to observe him testify in court, it is believed that he would creditably represent the Bureau on the witness stand, this conclusion being drawn from the fact that during the New Agents' Conferences he was given the opportunity of expressing himself, and through these expressions has indicated that he would make a creditable witness. This Agent handles the various firearms of the Bureau in a satisfactory manner, and is considered available for assignments involving danger. He is capable of operating effectively in connection with a physical surveillance. He operates a typewriter satisfactorily, but does not use shorthand. His reports have been average for a new Agent, and have required an average amount of supervision.

He has made friends with police officials in this district, and has made good contacts with business men and others with whom he has had dealings. His work reflects organization, and he initiates his investigations with a minimum of supervision. He has worked on both security and general criminal investigative matters, and has shown good progress.

At this time, there is no indication that he possesses supervisory, administrative or executive ability. He has not been assigned exclusively to any technical surveillance. His overtime has been above average.

This Agent is classified as a Good Special Agent. He needs more experience, but with added experience it is believed that he will develop into a better than average Special Agent.

Local Board Number 1

Gentlemen:

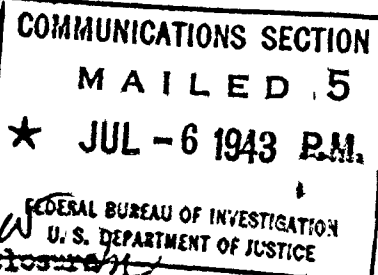

Reference is made to the Selective Service case of Mr. Cartha D. DeLoach, who is duly registered at your Board as Order Number 10005. You will recall that as a result of my previous request for occupational deferment, he has been placed in Class II-B.

SPECIAL AGENTS

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. The investigative work in connection with the above violations is performed by the Special Agent personnel of this Bureau, who are recruited from applicants between the ages of twenty-three and forty. They must be graduates of a law school or an accounting school with the necessary accounting experience, or graduates of a university with extensive investigative experience, or with linguistic qualifications, or have basic educational training and possess satisfactory prior law enforcement experience which will enable them to satisfactorily perform the duties imposed upon them. For certain of the scientific investigative work, Special Agents are secured who primarily are qualified in the sciences, such as ballistics, chemical analysis, spectography, cryptography, mineralogy, metallography, toxicology, and other like sciences. Applicants for appointment to the position of Special Agent must meet the physical standards and requirements for this position, which are exceedingly high. They must have vision of no less than 20/40 in one eye, 20/50 uncorrected, both eyes to be corrected to 20/20. They must have no color deficiency whatever.

Special Agents of the Federal Bureau of Investigation undergo a rigorous training program. All newly appointed Special Agents in the Federal Bureau of Investigation attend training classes for a period of sixteen weeks; the hours of training are from 9:00 a.m. to 9:00 p.m. daily, which course of study is equivalent to two full years of college study. During this period of training, they are thoroughly instructed in the basic rules and regulations and jurisdictions of the Federal Bureau of Investigation. They must satisfactorily pass numerous written examinations during their period of training. If a trainee fails to pass any of these examinations, he is dropped from the school.

The duties of a Special Agent of the Federal Bureau of Investigation are most arduous. They must be available at a moment's notice to go to any part of the United States or to any assignment outside the United States. The hours of duty for these employees are such that they must be in excellent physical health. The average work week for a Special Agent of the Federal Bureau of Investigation is no less than seventy hours. The work of a Special Agent, regardless of his particular qualification, is such that he cannot lead a sedentary or well regulated life. Due to the small number of Special Agents of the Federal Bureau of Investigation presently handling the work under the jurisdiction of the Federal Bureau of Investigation within and without the continental United States, it is necessary that the entire staff be highly mobile.

Special Agents are required to be able to conduct investigations in more than 100 types of cases, including espionage, sabotage, subversive activities, frauds against the government, kidnaping, extortion, bank robbery, White Slave

Traffic Act, etc. They are trained in and required to maintain constant skill in the use of highly technical equipment, technical processes, such as those necessary for the development of latent fingerprints, concealed or obliterated numbers upon firearms, to understand the use of code messages, to conduct physical surveillances of subjects of espionage and similar cases, sometimes for periods of many months, and when necessary, to assume a necessary character to enable them to fit in an undercover capacity into the activities and operations of groups such as foreign agents, who are engaged in thwarting the war effort.

The arduousness and importance of the work of Special Agents of the Federal Bureau of Investigation was readily recognized by the military and naval leaders. The Chief of the Bureau of Navigation, for the Secretary of the Navy, requested Special Agent employees of the Federal Bureau of Investigation to submit their resignations from reserve commissions held by them in the naval services because it had been determined that those Special Agents could better serve their country in their present assignments than if they were to be called into active naval service. The Secretary of War, in 1942, addressed personal communications to 168 Special Agents of the Federal Bureau of Investigation who at that time held reserve commissions in the Army. The Secretary of War at that time advised the Special Agents that their employment in the FBI is of such vital importance to the national defense as to necessitate their remaining at their posts of duty despite the fact that they held reserve commissions in the United States Army, and the request was made that these Agents, through the proper channels, submit their resignations from their commissions.

General Lewis B. Hershey of the Selective Service System pointed out in his Directive to all Local Boards of December 29, 1941, that Special Agent positions of the FBI were most important and essential to the national health, safety, and interests, and that the national defense functions of the FBI should not be impaired by the removal of trained personnel from critical positions in the Bureau.

The position of Special Agent has always been considered the most critical of all positions in the FBI, since, with the tremendous bulk of work placed upon us due to the war emergency, it is essential that a trained qualified staff be available for the handling of this work. If the Federal Bureau of Investigation cannot continue to retain its personnel in this critical position, aid and comfort would most certainly be given to the enemy and others whose interests are inimical to the best interests of the country today. Up to the present time the full complement of Special Agent personnel has not been secured and every effort is being made to secure the necessary additional Special Agent personnel.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Subscribed and sworn to before me this 1st day of July 1945

60-Day Efficiency Rating

EOO 12-14-42

This agent presents a good appearance and has a frank, good-natured, pleasant personality. He is industrious, interested in his work, learns quickly and profits by his mistakes.

copy
Agent DeLOACH has been assigned to the Communist Squad of this office but for approximately three weeks has been on a technical surveillance which he conducted in an excellent fashion. His work has reflected that he possesses judgment and initiative.

I consider this agent capable of handling assignments involving danger, under proper supervision, and he has operated on several physical surveillances in a creditable manner. He is considered a good dictator. This agent has not testified while assigned to this division but from a review of his file it is believed he could represent the Bureau satisfactorily as a witness.

Although Agent DeLOACH at first experienced difficulty in report writing, this quickly improved to reflect merely the average amount of error for one of his experience and he may be expected to show more improvement.

I consider this agent's progress satisfactory.

Mr. DeLoach is a Special Agent and as such holds a key position as designated by the Review Committee of the War Manpower Commission within the meaning of Executive Order 9309. The performance of his duties is essential and critical to the execution of the work assigned by law and Executive Directive to the Federal Bureau of Investigation.

To the Federal Bureau of Investigation is assigned the responsibility of investigating all acts of espionage, sabotage and all actions tending to undermine the internal security of the nation. We must also investigate and enforce all those federal statutes assigned to the investigative jurisdiction of this Bureau such as: bank robbery, kidnaping, interference with the interstate transportation of goods, National Stolen Property Act, White Slave Traffic Act, etc., the enforcement of which is necessary to the preservation of the national health, safety and interest.

To carry on this work it is necessary to maintain a corps of trained investigators. Mr. DeLoach is such a trained investigator. In the attached Form 42 S further information relative to Mr. DeLoach is set forth.

SPECIAL AGENTS

This position has been designated as a key position by the Review Committee of the War Manpower Commission.

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. The investigative work in connection with the above violations is performed by the Special Agent personnel of this Bureau, who are recruited from applicants between the ages of twenty-three and forty. They must be graduates of a law school or an accounting school with the necessary accounting experience, or graduates of a university with extensive investigative experience, or with linguistic qualifications, or have basic educational training and possess satisfactory prior law enforcement experience which will enable them to satisfactorily perform the duties imposed upon them. For certain of the scientific investigative work, Special Agents are secured who primarily are qualified in the sciences, such as ballistics, chemical analysis, spectography, cryptography, mineralogy, metallography, toxicology, and other like sciences. Applicants for appointment to the position of Special Agent must meet the physical standards and requirements for this position, which are exceedingly high. They must have vision of no less than 20/40 in one eye, 20/50 uncorrected, both eyes to be corrected to 20/20. They must have no color deficiency whatever.

Special Agents of the Federal Bureau of Investigation undergo a rigorous training program. All newly appointed Special Agents in the Federal Bureau of Investigation attend training classes for a period of sixteen weeks; the hours of training are from 9:00 a.m. to 9:00 p.m. daily, which course of study is equivalent to two full years of college study. During this period of training, they are thoroughly instructed in the basic rules and regulations and jurisdictions of the Federal Bureau of Investigation. They must satisfactorily pass numerous written examinations during their period of training. If a trainee fails to pass any of these examinations, he is dropped from the school.

The duties of a Special Agent of the Federal Bureau of Investigation are most arduous. They must be available at a moment's notice to go to any part of the United States or to any assignment outside the United States. The hours of duty for these employees are such that they must be in excellent physical health. The average work week for a Special Agent of the Federal Bureau of Investigation is no less than seventy hours. The work of a Special Agent, regardless of his particular qualification, is such that he cannot lead a sedentary or well regulated life. Due to the small number of Special Agents of the Federal Bureau of Investigation presently handling the work under the jurisdiction of the Federal Bureau of Investigation within and without the continental United States, it is necessary that the entire staff be highly mobile.

Special Agents are required to be able to conduct investigations in more than 100 types of cases, including espionage, sabotage, subversive activities, frauds against the government, kidnaping, extortion, bank robbery, White Slave

Traffic Act, etc. They are trained in and required to maintain constant skill in the use of highly technical equipment, technical processes, such as those necessary for the development of latent fingerprints, concealed or obliterated numbers upon firearms, to understand the use of code messages, to conduct physical surveillances of subjects of espionage and similar cases, sometimes for periods of many months, and when necessary, to assume a necessary character to enable them to fit in an undercover capacity into the activities and operations of groups such as foreign agents, who are engaged in thwarting the war effort.

The arduousness and importance of the work of Special Agents of the Federal Bureau of Investigation was readily recognized by the military and naval leaders. The Chief of the Bureau of Navigation, for the Secretary of the Navy, requested Special Agent employees of the Federal Bureau of Investigation to submit their resignations from reserve commissions held by them in the naval services because it had been determined that those Special Agents could better serve their country in their present assignments than if they were to be called into active naval service. The Secretary of War, in 1942, addressed personal communications to 168 Special Agents of the Federal Bureau of Investigation who at that time held reserve commissions in the Army. The Secretary of War at that time advised the Special Agents that their employment in the FBI is of such vital importance to the national defense as to necessitate their remaining at their posts of duty despite the fact that they held reserve commissions in the United States Army, and the request was made that these Agents, through the proper channels, submit their resignations from their commissions.

General Lewis B. Hershey of the Selective Service System pointed out in his Directive to all Local Boards of December 29, 1941, that Special Agent positions of the FBI were most important and essential to the national health, safety, and interests, and that the national defense functions of the FBI should not be impaired by the removal of trained personnel from critical positions in the Bureau.

The position of Special Agent has always been considered the most critical of all positions in the FBI, since, with the tremendous bulk of work placed upon us due to the war emergency, it is essential that a trained qualified staff be available for the handling of this work. If the Federal Bureau of Investigation cannot continue to retain its personnel in this critical position, aid and comfort would most certainly be given to the enemy and others whose interests are inimical to the best interests of the country today. Up to the present time the full complement of Special Agent personnel has not been secured and every effort is being made to secure the necessary additional Special Agent personnel.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Subscribed and sworn to before me this 14th day of December 1943

Dear Sir:

I wish to recommend that Special Agent CARTHA D. DeLOACH be designated Resident Agent at Akron, Ohio, to replace former Special Agent WILLIAM F. ROACH. CARTHA D. DeLOACH
Special Agent
Annual Efficiency Rating

EOD 102-14-422

This agent dresses well, presents a neat appearance and possesses a frank, open personality. He is hearty and likeable and makes friends easily. He is loyal, conscientious and enthusiastic about his work, of which he performs an above-average volume. He presents an aggressive, forceful manner and rightly has confidence in himself. He has exhibited initiative and resourcefulness and good judgment in his work.

Agent DeLOACH is a good driver, types at the rate of 50 words a minute and knows some shorthand. He handles firearms well and is temperamentally suited for assignments involving danger. He has operated very capably upon a number of physical surveillances. The United States Attorney's Office at Norfolk considers this agent a capable witness. His contacts with business men and law enforcement officers have been good. He organizes and initiates investigations intelligently, accepts responsibility willingly and discharges it with less than average supervision.

This agent is considered a good dictator. In order to improve, he must be careful of his enunciation due to his Southern accent. His reports are well organized and logical and reflect less than the average volume of errors of form for one of his experience in the type of work to which he presently is assigned. He has worked on the following types of cases: National Defense - 14, 25, 65, 66, 98, 100; General Investigative - 9, 15, 26, 31, 43, 47, 52, 70, 76, 87.

This agent is presently assigned to the Communist Squad of this office as a resident agent at Akron, Ohio. During his assignment to this division, he spent five months upon technical surveillances during which period his work was performed in a very efficient fashion. Thus far I have observed no supervisory ability on the part of this agent and he has been afforded no experience in supervisory work.

Agent DeLOACH's performance, for one of his experience, I believe to be very good.

Re: SPECIAL AGENT CARTHA D. DeLOACH
MILITARY LEAVE

Dear Sir:

Reference is made to Bureau teletype dated April 10, 1944 in which the writer was advised that due to present administration directives the Bureau would be unable to request further occupational deferment in his particular case.

Please be advised that due to the above, I have applied for re-instatement of a United States Naval Reserve Commission. I resigned upon accepting appointment as a Special Agent in December, 1942. At the present time, the Personnel Office of the Navy Department has not indicated definitely on what date I will be called to active duty in this branch of the service, but has expressed an opinion that my appointment, in all probability, will become effective around the end of this month.

In accordance with Bureau regulations governing military leave, I will advise the Bureau immediately upon entering the armed forces.

It is with regret that I leave the Bureau at this time, but due to present age restrictions, I can easily understand the Bureau's situation in this matter. I feel that my training as a Special Agent and my experience in the field, serving in the same capacity for nearly one and one-half years, will prove invaluable to me throughout life. I sincerely hope that while serving as a representative of the FBI, I have been able to add to the Bureau's prestige, in addition to the innumerable list of friends, contacts and sources of information.

Should the Bureau see fit to call on me for anything between the period of my service with the United States Navy and my re-entry into the Bureau after the duration, I will always be more than glad to serve accordingly.

Respectfully,

C. D. DeLoach

SUBJECT: Cartha D. DeLoach, Special Agent

DATE: July 24, 1944

SAC Fletcher while discussing other matters with the writer advised that the above agent who is under 24 years of age and whom it is not possible for the Bureau to request further occupational deferment for had reapplied for a commission he had been tendered by the Navy at the time he accepted his position with the Bureau, and the Navy informed DeLoach it would not be possible to grant him this commission at this time.

SAC Fletcher inquired as to whether or not the Bureau might be of any assistance to DeLoach in connection with obtaining this commission. It appears that since DeLoach received the offer of the commission and the appointment to the Bureau at the same time, he turned down the commission and came with the Bureau. Apparently, the Navy is reluctant to reoffer the commission to him at this time in view of the circumstances. I advised Fletcher I would check into this matter and advise him subsequently as to the Bureau's action if any in this matter.

MEMORANDUM FOR MR. TOLSON

Re: Cartha Dekle DeLoach
Special Agent
Assigned Cleveland

This Agent, for whom due to his age we are no longer able to request deferment, came in to see me while on annual leave last week. He was in Washington furthering his efforts to obtain a commission in the Navy. He pointed out that he had been tendered a commission at about the same time his original appointment as a Special Agent was offered. He turned down the Navy commission for the position with the Bureau where he thought he could render the better service to his country. He has now been advised by the Navy that he "had made his own bed and had to sleep in it," apparently meaning that having once turned down the commission he certainly was not going to be offered one again. DeLoach inquired whether there was anything we might do.

I pointed out to him that this was a matter entirely outside the Bureau's business and that any efforts we might make to help him might not be appreciated. I told him that the best we could do would be to advise the Navy upon inquiry from them concerning his record with the Bureau. DeLoach indicated that Senator George, Chairman of the Navy Affairs Committee, was going to try to help him get his commission.

I was very much impressed with DeLoach who is poised and mature far beyond his age. He is obviously intelligent, aggressive and enthusiastic. He is looking forward to his return to the Bureau after the war and most favorable consideration should be given to any request for future employment.

Respectfully,

Robert C. Hendon

Re: SPECIAL AGENTS FOR SIS ASSIGNMENT

Dear Sir:

Reference is made to Bureau letter dated July 10, 1944 in the above-titled matter. The following Special Agents have indicated an interest in assignment to foreign duty:

g
[redacted]

Agent [redacted] is not more than 5' 7" in height, of normal weight and is very neat and tidy. He is [redacted] years of age, appears to be youthful. He has served as a Resident Agent at Akron, Ohio, and indicates he can work without supervision. He is well accepted by persons whom he contacts and appears to be well-mannered, courteous and expresses himself well.

This agent has no special experience or background to particularly qualify him for foreign duty. He is single and in good health. He cannot read, write or speak any foreign language but his education has covered some work on the French and German languages. It is believed that Agent [redacted] could be considered qualified for this work if he is permitted to work with others, as I do not believe he has sufficient education and experience to serve on foreign duty entirely on his own initiative and responsibility.

W. KEITH CASH *2/8*

This agent is about 6' in height, of normal weight, is neat in dress, mature in action and manner and is serious. He is a Resident Agent at Toledo, Ohio, and is generally regarded capable of handling work on his own initiative without particular supervision. He is always well-mannered and courteous and in his work has made proper contacts. With relation to making contacts, his performance is regarded as above average. He can express himself properly, is conscientious and amenable to discipline. I believe he is adaptable.

RECORDED
324092-52
I do not know of any special experience or background which would qualify this agent to work undercover other than the

fact that he has proven himself to be an above-average agent. He is married, has a wife and a small child, is 30 years of age and in good health. He has no knowledge of any foreign language but he did study the German language in college. This agent is believed qualified for foreign duty.

✓
[redacted] 5

Agent [redacted] is about 5' 10" in height, of slight build, and is neat, courteous and mature. He has served as Resident Agent in Lorain, Ohio, where he was inclined to work on his own initiative and responsibility without supervision. He is well-mannered, is not forward yet he is not the type of person that can be pushed around. He makes friends and keeps them. He has the ability to make contacts and his performance is at least average. He can express himself well and is regarded amenable to discipline. His experience and development as a Special Agent reflects that he is adaptable.

b6

This agent has had no special experience or background that would particularly qualify him to work undercover other than his development as a Special Agent. He is 26 years of age, has no dependents and is in good health. He has been given instruction in the Spanish language at the Bureau and it is believed that he is able to speak it. It is recommended that Agent [redacted] be given consideration for this type of work.

✓
[redacted] 25

Agent [redacted] is not more than 5' 6" in height, of normal weight, is neat and courteous. He is [redacted] years of age but his small stature does not give him the air of maturity. He serves as Resident Agent at Sandusky, Ohio, and has been making very satisfactory contacts there with police agencies and others. He is inclined to work on his own initiative without any particular supervision. He is always pleasant and courteous and should be able to conduct himself properly on any type of function. He expresses himself rather well and is very amenable to discipline.

b6

This agent has had no special experience or background that would qualify him particularly to work undercover other than his experience as a Bureau Agent. He is married, has one child and is in good health. He has some knowledge of the Spanish language and can

Director, FBI

speak it partially. Agent [] earns his rating of Very Good as a Special Agent. It is doubtful that he has sufficient polish and personal appearance to appear properly at formal functions or to meet high diplomatic officials and I believe he serves better with the Bureau in his present capacity than he would on the assignment to foreign duty. b6

JOHN L. CARROLL *rf*

This agent is about 5' 9" in height, of medium weight, is very clean in his dress and tidy. He is 27 years of age, reflects that maturity. He serves as a Resident Agent at Toledo, Ohio, and is capable of working without particular supervision. His personal appearance lends itself well to meeting high ranking officials and attending formal functions. He is properly courteous and pleasant. As Resident Agent, his contacts have been good and he has developed one confidential informant of particular value. He expresses himself clearly and is self-confident.

This agent has had no special experience or background that would qualify him particularly for foreign duty other than his experience as a Special Agent. He is married and has two children, is in good health. He has no knowledge of any foreign language. It is believed that this agent could qualify for foreign duty; however, it is noted that he is married and has two children as dependents. It is doubtful if it would be to the benefit of the Bureau if he were afforded this type of assignment.

CARTHA D. DeLOACH *rf*

Agent DeLOACH is about 5' 11" in height, of athletic build and weight, dresses neatly and is youthful. He is 23 years of age but acts more mature than that. He is conscientious and sincere and has worked as a Resident Agent at Akron, Ohio. He has proven himself adaptable, has made above-average development for an individual of his age and is inclined to work without supervision on his own initiative. He has been more successful than other Resident Agents in contacting persons, gaining their confidence and making personal friends of them. He can express himself properly and is very amenable to discipline.

This agent has had no special experience or background that might qualify him for foreign duty. He is not married, has no dependents and is in very good health. He has some knowledge of the French

Director, FBI

language. He is anxious to participate on this type of assignment. It is noted that his age has made him subject to induction under the Selective Service regulations. In this connection, he advises that his Board will grant him further deferment if requested. It is recommended, if consistent with Bureau policy having in mind his age, that he be given consideration.

[REDACTED]

b6

Agent [REDACTED] is about 5' 10" in height, of normal weight, good personal appearance, is neat and reflects proper maturity for his age. He is [REDACTED] years of age. In the past he has served the Bureau on foreign duty and it is noted that the Bureau on his annual rating, based on his work in this field, gave him a rating of Excellent. He is single, has no dependents, is in good health and has some knowledge of the Spanish language. It is recommended that he be given consideration for foreign duty.

CHARLES W. GRUBB

Agent GRUBB is about 5' 10" in height, of normal weight and build, is courteous, neat and of good personal appearance. He has a little knowledge of the Spanish and French languages which he gained while in school. He has no speaking, writing or reading ability in any language. It is noted that this agent has a wife and three children as dependents and he is 32 years of age.

I believe it would better serve the Bureau's interest if this agent were not afforded the opportunity of engaging on foreign duty assignment, having in mind his dependents and the fact that he has just been in the Bureau field work one year.

[REDACTED]

b6

Agent [REDACTED] is about 5' 10" in height, of normal weight and is very neat and pleasant. He is but 24 years of age, however, he acts more mature than his age would indicate. He serves as a Resident Agent at Toledo, Ohio, takes an interest in his work, applies himself properly and works generally without any supervision on his own initiative. He has the ability to meet people properly and to be accepted by them. He can express himself well and is very amenable to discipline.

Director, FBI

This agent has had no special experience or background that would qualify him for foreign duty other than his experience as a Bureau Agent. He has developed a rating as an agent of Very Good. He is married, has one child and is in good health. He has no knowledge of any foreign language, though he studied French and German in school. He indicates that he is very interested in this type of assignment and in view of his particular interest it is recommended that he be given consideration.

[REDACTED]

b6

Agent [REDACTED] is about 5' 11" in height, of normal weight, is very pleasant, courteous and neat. He is very mature, entered the Bureau as a Special Employee Agent and is a graduate of the National Police Academy. He is 32 years of age and has a wife and three children. He has some knowledge of the German language and is particularly interested in foreign duty in Germany. He is very conscientious and sincere and is very anxious to prove himself with the Bureau but this results in the fact that he ties himself up. He is so anxious to succeed that any small error rattles him.

It is not believed that this agent is of the right temperament nor has he had sufficient background and education to properly serve the Bureau as an employee engaged on foreign duty; further, he has a rather large number of dependents. He is not recommended for foreign duty.

LEN H. KURTZ

Agent KURTZ is about 5' 9" in height, of normal weight and dresses neatly. His personal appearance indicates a lack of maturity, though as a matter of fact he is 27 years of age. He has not had a year in the Bureau field and will not have until October but indicates he is interested in this type of assignment as soon as he is qualified. In the past he has studied French but at present he cannot read, write or speak it. He is married and in good health.

This agent has had no special experience or background that would qualify him to work undercover and he has not had sufficient experience as an investigating Special Agent to prove that he would qualify. It is not presently recommended that this agent be given consideration for foreign duty assignment.

Director, FBI

ROGER W. ROBINSON ~

Agent ROBINSON is about 5' 11" in height, of athletic weight and build, is physically strong, neat, pleasant and is capable of making good contacts. He meets people easily, is not forward yet properly aggressive. He expresses himself properly, is self-confident in manner and action and is amenable to discipline. He has qualified in an excellent manner as a Special Agent and should be able to serve properly on foreign duty though he has no special experience or background that particularly qualifies him.

This agent is married and has one child. His health is excellent. He has no knowledge of any foreign language, though he has studied Spanish in college. He has departed this office on transfer prior to the submission of this letter. His name is listed herein to be certain that the fact that he has volunteered for this assignment is known to the Bureau. It is recommended that he be given consideration for this type of assignment, it being remembered, however, that he has as dependents a wife and child.

HAROLD V. SETTLE ~ 6

Agent SETTLE is about 5' 8" in height, of normal weight, perhaps a little slender, is neat and pleasant. He is 30 years of age but does not reflect maturity in his actions and manner. He is serving as a Resident Agent at Akron, Ohio, and generally works without particular supervision. His development as a Special Agent in the Bureau is not outstanding, it being noted that he is rated Good as an agent in Grade CAF 11 and has been in the field for almost four years. It is not indicated that he is above average in any manner.

This agent is married and his wife is expecting a child within the next few months. He is in good health and indicates he is capable of reading French fairly well but has no knowledge of any other foreign language. It is not recommended that he be given consideration for foreign duty as his development as a Special Agent has not been of such character to indicate that his development and abilities are above average.

Director, FBI

✓
[redacted] ✓

b6

Special Agent [redacted] is above average in personal appearance. He is about 6' 1" in height, weighs around 200 pounds, appears to be well proportioned, very neat in his dress and is well mannered. He should be able to get along easily with any type of person. His approach is easy and pleasant and he has the ability to express himself. He is amenable to discipline.

This agent has had no special experience or background to qualify him particularly for foreign duty. He is presently serving as a Resident Agent at Mansfield, Ohio. His contact work has been good. He is married and has two children, is in excellent health and is from Texas. It is believed he is conscientious. He can read some Spanish and understands a little of it when spoken. He gives the impression of being slow in the manner of a Southerner but he is consistent and steady. He is recommended for this type of assignment but it is noted that he has a wife and two children, that his father was recently deceased and it is necessary for him to handle his father's affairs in behalf of his mother, also that one of his children is not more than three or four months of age. It is recommended, therefore, that if he is considered for this type of assignment, consideration be given to his personal obligations.

HOWARD D. SMOOT - ✓

Agent SMOOT is neat, courteous, is about 5' 7" in height, of good, normal, medium build and is most sincere and conscientious. He should be able to get along with and meet any type of person. He can express himself in above-average manner, is very amenable to discipline.

This agent has had no special experience or background to qualify him particularly for this type of assignment except his experience and development as a Special Agent, in which he has proven himself to be above average. He is married, 31 years of age, has one child 15 months old and is in excellent health. He indicates that he is extremely interested in this type of assignment as he reads, writes and speaks French well and can read German and Spanish. He is recommended for this assignment.

PAUL W. THOMPSON - ✓

Agent THOMPSON is about 5' 9" in height, of average weight, slight build, is always neatly dressed, mature and well qualified to

Director, FBI

work without supervision. He has more initiative than most agents. He is well accepted by all with whom he comes in contact, can express himself properly, is amenable to discipline and is industrious. He serves as a Resident Agent in Toledo, Ohio.

This agent has no special experience or background that would qualify him particularly for this type of work other than his experience and development as a Special Agent. He is married and has no children. He is 29 years of age and in good health. It is believed that this agent is qualified for this type of assignment and it is recommended that he be given consideration therefor. He has no knowledge of any foreign languages though he has studied some Spanish in the past.

JOHN S. P. WILSON, JR. *~g*

Agent WILSON is about 5' 11" in height, of slender build, is very neat, tidy and properly mature. He serves as a Resident Agent at Akron, Ohio. It can be generally said that his work is handled without supervision. He should be able to meet persons in any position properly. He can express himself and is amenable to discipline.

This agent has had no special experience or background that would qualify him particularly for foreign duty other than his work as a Special Agent. He is married and has one child. He is in good health and is 28 years of age. He is recommended for consideration but it should be remembered that he is married and has one child dependent upon him.

JOHNNIE W. DYER *~g*

Agent DYER is about 6' 1" in height, of slender build, is neat, pleasant and courteous and has a good personal appearance. He should not have any difficulty in making contact with any individual regardless of position. He has had no special experience or background which would particularly qualify him for foreign duty except his development as an agent. He is amenable to discipline, is interested and sincere, has no dependents and is 28 years of age. He is of good health and is regarded qualified. He has no knowledge of any foreign languages. It is recommended that he be given consideration.

Very truly yours,

My dear Mr. Hoover:

I wish to take this opportunity to advise you of the splendid work done by one of your representatives in this particular area, Special Agent Cartha D. DeLoach. During this period of time, Mr. DeLoach has handled a case of importance for our company.

Our business is manufacturing prophylactic rubber goods, and our practice has been to sell to the rubber brokers goods that were not fit for use, and those were sold as scrap at the rate of 18¢ per pound. A gang of men made up from the employees of one of the rubber brokers began selling thousands of pounds of this scrap to the public as good goods at the rate of \$2.25 per pound.

Mr. DeLoach was instrumental in apprehending those fellows, and it developed that that scrap was stolen from the Rubber Reserve which is a Government agency. I don't know whether the U.S. Attorney will make a case against those fellows, but whether he does or not, I can not abstain from expressing to you the fine work done by Mr. DeLoach in this case.

CARTHA D. DeLOACH
Special Agent
Special Efficiency Rating

military duty

Submitted herewith is a special efficiency rating on the above-named agent in view of his separation from the service for induction into the Armed Forces, his active duty having ceased at 1:00 PM, September 30, 1944. He has been on annual leave since that time and is to be inducted on the morning of October 13, 1944.

This agent presents a good personal appearance, has a pleasant personality and is neatly dressed at all times. He has exhibited a proper amount of initiative, resourcefulness, force and aggressiveness in the handling of his assignments. He is interested in his work, is loyal beyond any question of a doubt and exercises good judgment. He is rated as a very good dictator, has his facts well in mind and dictates at an even, rapid rate of speed. The only criticism offered is that he is sometimes a little difficult to understand which is probably due to his Southern accent.

Agent DeLOACH is an excellent automobile driver and it is noted that the United States Attorney's Office at Norfolk, Virginia, considers this agent a capable witness. His personal makeup is such that I would not hesitate to use him on dangerous assignments, it being noted that he handles firearms in a proficient manner. He has operated on physical surveillances, which assignments were carried out in a very good manner.

W
This agent can operate a typewriter sufficiently well for rough draft purposes but has no shorthand ability. His reports are well organized and logical and reflect less than an average amount of error of form for one of his experience in the type of work to which he has been assigned. He organizes and initiates investigations in an above-average manner and accepts responsibility and discharges same with practically no supervision. I consider this agent a very good contact man both with law enforcement officials and the general public.

This agent has been handling both National Defense and General Criminal investigations falling within the 14, 25, 65, 66, 98, 100, 9, 15, 26, 31, 43, 47, 52, 70, 76 and 87 classifications. I have observed no supervisory ability on the part of this agent and he has not been afforded experience in supervisory work. He is not assigned to a technical surveillance.

Agent DeLOACH's performance has been very satisfactory and I rate him as Very Good.

Dear Sir:

Transmitted herewith are the personnel file, leave record and leave slips, field firearms and scientific training record, duplicate property record and a special efficiency rating on the above-named agent in view of his separation from the service for induction into the Armed Forces, his active duty having ceased at 1:00 PM, September 30, 1944. He has been on annual leave since that time and is to be inducted on the morning of October 13, 1944.

Dear Mr. DeLoach:

Reference is made to your letter of September 16, 1945, regarding reemployment with this Bureau.

As you know, the Selective Training and Service Act requires that you make application for reinstatement to your former position within ninety days following the date of your honorable discharge from the military service. This application must be accompanied by a certificate of satisfactory service, and you will also be required to take a physical examination to determine whether you are still physically qualified to perform the duties of the position which you left for the purpose of entering the armed forces. If you meet the requirements of this act, you are entitled to reinstatement without loss of seniority, grade, or status.

I am glad to know that you are looking forward with pleasure to your return to the Bureau, and you may be assured we are eager for the day you, and others like you, will resume your former places among us. Dear Sir:

In anticipation of being released from Military Service within the next three or four months, I would like to announce my intentions of again entering the Federal Bureau of Investigation in the capacity of Special Agent.

It is with pleasure that I look forward to again carrying on the duties of an Agent. I have missed Bureau work and former associations considerably since entering service.

My military duties have afforded extensive traveling and various responsibilities which I believe will assist my work as an Agent. The major part of my time has been spent as a Naval Physical Director, while some time has been served as an Instructor. Other duties consist of Welfare and Recreation supervision, and duty in handling supplies, etc.

I will advise the Bureau immediately upon ascertaining the date of my discharge.

Dear Mr. DeLoach:

This will acknowledge your letter of February 20, 1946, regarding reemployment with this Bureau.

As you no doubt know, under the requirements of the Selective Training and Service Act, as amended, it will be necessary for you to submit a certificate of satisfactory service or a photostatic copy of your honorable discharge from the U. S. Navy. Likewise the Act requires that you take a physical examination to determine whether you are still physically qualified to perform the duties of the position you left for the purpose of entering the armed forces. I am enclosing Form 2413, which should be executed by you and your doctor and forwarded to the Bureau for this purpose, together with a photostatic copy of your discharge or certificate of satisfactory service.

Pursuant to your request, it will be satisfactory for you to report for duty at the Cleveland Field Division at 8:30 a.m. on April 1, 1946.

Inasmuch as you have been away from active duty from this Bureau for some period of time, it will be necessary after your return to duty for you to attend a new Agents Training Class in order to bring you up to date with regard to new developments. You will be advised as soon as a date for a new Agent Class has been arranged.

RE: CARTHA D. DE LOACH
SPECIAL AGENT, MILITARY LEAVE

Dear Sir:

Reference is made to the letter which the Bureau transmitted to Special Agent DeLoach under date of March 5, 1946, a copy of which was furnished to you advising him to report for duty at the Cleveland Field Division on April 1, 1946.

In that same letter Agent DeLoach was told that it would be necessary for him to attend a New Agents Training Class since he had been away from active duty with this Bureau for some period of time and it is desired that you instruct him to report to Room 5256, U. S. Department of Justice Building, Washington, D. C. at 9:00 A. M., Monday April 22, 1946.

Agent DeLoach should be advised that his assignment during training will be either at Washington, D. C., or Quantico, Virginia. He will receive \$6.00 per diem while in Washington, D. C., however, if training is given in Quantico, Virginia, a per diem of \$4.20 will be allowed. It will not be possible for the wives and families to be domiciled at Quantico during the period of training. Agent DeLoach should be advised to have the following gymnasium equipment while in training: 2 pair wool socks (white), 2 pair of athletic trunks (gray), 1 pair of gymnasium shoes (white - either high or low), and 1 pair of shower room clogs.

In the event a situation should arise which would make it impossible for this Agent to report as instructed, the Bureau should be advised immediately.

Notes for Examining Physician

WEIGHT.—Males, without clothing, and also in ordinary clothing without overcoat or hat (weigh twice); females, clothed, but without wrap or hat.

HEIGHT.—Without boots or shoes; observe that no appliances are used to increase.

The examination should include the following observations:

1. **Eyes.**—Ptosis; discharge; corneal scar; pterygium. In recording distant vision consider 20 feet as normal and report all vision as a fraction with 20 feet as numerator and the smallest type read at 20 feet as denominator. If glasses are used, record for each eye the finding with and without glasses. Near vision must be reported. In testing vision without glasses the applicant or appointee should be instructed to remove the glasses at least one-half hour before testing uncorrected vision.

2. **Ears.**—Evidence of middle ear or mastoid disease; condition of drums; discharge. In recording hearing, record 20 feet as normal distance for conversational voice and record deviation from normal as fraction with 20 as denominator and actual distance as numerator.

3. **Nose.**—Ability to blow through each nostril. If free, a speculum examination would not be indicated.

4. **Mouth and throat.**—Missing teeth, pyorrhea; tonsils, hypertrophy or disease.

5. **Gastro-intestinal.**—Ulcers, inflammations, etc.

6. **Thyroid.**—Presence of tumor in neck and tremor, exophthalmos; nervous high-strung disposition, especially in women.

7. **Heart.**—Murmurs. State whether functional or organic. If valvular disease exists, state whether or not it is fully compensated. Arteriosclerosis.

8. **Lungs.**—It is necessary that the auscultatory cough be used. If tuberculosis is present, state whether active or arrested; if arrested, state your opinion as to how long it has

been quiescent. Sputum to be examined for tubercle bacilli in all suspected cases.

9. **Hernia.**—Give details as to size, location, etc., and whether well-fitting truss is worn. Inguinal hernia exists when ring is enlarged and on coughing visceral impulse is felt which follows the finger on withdrawal.

10. **Varicocele.**—If varicocele is present, state approximate size—e. g., size of walnut, lemon, etc.

11. Flat foot of such a nature as to incapacitate or become aggravated by work or be alleged later to have been caused by accident or occupation. By "flat foot," as used in this form, is meant a weak foot with impaired function, the term being equivalent to "fallen or misplaced arch," an abnormal condition. Impairment of function is the point to be noted. An anatomically flat foot, but strong, is not disqualifying. Function should be tested by requiring the examinee to raise his weight several times on his toes and to jump as far as possible, alighting on his toes.

12 and 13. Scars, deformities, atrophies, and paralyses should be noted, but it is not important that small insignificant scars or blemishes which might be referred to as marks of identification be recorded.

14. This entry should include symptoms and full history of any mental or nervous abnormality.

15. Urinalysis to be made in case of persons over 40, and in all cases where arteriosclerosis, nephritis, or diabetes is suspected, and when obesity is found on examination.

Record of urinalysis, if made: Sp. gr. ✓ Albumen ✓ Sugar ✓ Casts ✓

Blood serology test, if made: Result ✓

If arrhythmia, bradycardia, or tachycardia is present, give pulse rate: Sitting ✓ Immediately after exercise (unless contraindicated) ✓ Two minutes after exercise ✓ Cardiac reserve ✓ (Good, fair, or poor)

I have found this applicant abnormal under the following headings: _____

With further reference to my previous memoranda concerning the above-named Special Agent, you are advised that by letter dated March 25, 1946, he enclosed a certified copy of his honorable discharge from the U. S. Navy and an executed medical form.

His notice of separation from the U. S. Naval Service indicates he was inducted and entered into active service in the U.S. Navy on October 13, 1944 and was honorably discharged on March 13, 1946 at Norman, Oklahoma. He attained the rating of Specialist (A) Second Class and was assigned serial number 950 03 69. He was awarded the Victory Medal for World War II and the American Campaign Medal. A check of the service record of DeLoach has been requested.

His physical examination reflects that his vision is normal, and he is capable of arduous physical exertion.

The foregoing is submitted for your information, inasmuch as Mr. DeLoach returned to active duty at the Cleveland Field Division on April 1, 1946 in the position of Special Agent. The necessary papers restoring him to the rolls of the Bureau have been prepared and sent through.

CARTHA D. DeLOACH
Special Agent
Special Efficiency Rating

This special efficiency rating is submitted on Special Agent CARTHA D. DeLOACH, who reported for duty at the Cleveland Field Division from military leave on April 1, 1946.

Since May 13, 1946, Agent DeLOACH has been Resident Agent at Akron, Ohio. He presents a good personal appearance and has a pleasant, friendly personality. He has displayed a very fine attitude toward his assignments, being definitely interested in his work, ambitious, conscientious and aggressive. He is a resourceful type and one who has exercised very good judgment. He is extremely cooperative and definitely loyal.

me
ru
Agent DeLOACH has had no difficulty in the handling of Bureau automobiles and has above-average proficiency in the use of firearms. He is a type whom I would not hesitate to assign work involving danger because of his qualifications. The reports submitted by this agent have been in proper form and have reflected a good working knowledge of the Bureau's manuals and policies. By personal application, he has rapidly developed this knowledge.

This agent's paper work requires a minimum amount of supervision and also reflects an above-average volume of production. He is businesslike in arranging his work and also in his handling of contacts. It is my impression that this agent gets along extremely well with police officers, as well as business men, in his territory. He appears to be well liked and to have their confidence and cooperation.

Agent DeLOACH is in good physical condition and capable of performing strenuous physical exertion. He has had no opportunity to demonstrate supervisory, administrative or executive ability; however, in my opinion he is entitled to a rating of Excellent in Grade CAF 10.

I have read this rating

Reference is made to your communication of December 5, 1946, enclosing a speech manuscript prepared by Special Agent Cartha D. DeLoach of your office. The manuscript has been reviewed and found to be generally satisfactory. Special Agent DeLoach may be utilized in accordance with existing Bureau regulations.

The following should be called to the attention of Special Agent DeLoach:

On page four it is indicated that there are more than 105,000,000 fingerprint cards on file. It is more nearly correct to say there are more than 103,000,000 fingerprint cards on file. Under subsection B on page four, the number of laboratory examinations conducted for the fiscal year 1945 is set forth. Since figures for the fiscal year 1946 are now available, it is suggested that they be utilized.

SAC RICHARDSON:

Agent DeLoach makes a good appearance, is aggressive and ambitious in the discharge of his duties and his volume of investigative work is definitely above average. He is a Resident Agent at Akron, Ohio, where he is well known by law enforcement officers and business people. Recently, Attorney General Tom Clark visited Akron and I assigned this agent to assist him while there and he did this in a very satisfactory manner as was indicated by a note which the Attorney General sent him. He also was assigned a case involving the alleged theft of jewelry belonging to the Harvey Firestone Juniors and his performance there was equally good. I feel he is capable of handling practically any type of investigation.

Rating: VERY GOOD

INSPECTOR MC KEE:

This man makes a good appearance, dresses neatly and has a nice personality. He impresses me as being intelligent, interested, and alive. He is a second office man; however, he was in the Navy for two years since entering on duty as an agent. He is a resident agent at Akron. In the Navy he was a physical instructor in Judo. His prospects for development are very good. He has no problems. He made no suggestions.

CARTHA D. DeLOACH
Special Agent
Special Efficiency Rating

This special efficiency rating is submitted on Special Agent CARTHA D. DeLOACH pursuant to Bureau instructions contained in teletype dated January 23, 1947.

Agent DeLOACH has been a Resident Agent at Akron, Ohio, since May 13, 1946 when he returned from military service. He presents a good personal appearance and has a friendly personality. He makes friends readily with the public, the police and important individuals whom he has contacted. During the fall of 1946 he was assigned to assist Attorney General TOM CLARK on his visit to Akron. As indicative of the manner in which he handled this assignment, the Attorney General wrote this agent a personal note expressing appreciation for the "fine assistance" rendered during his visit.

Agent DeLOACH has an excellent attitude, is aggressive and ambitious and is very cooperative in discharging his duties. He is an excellent investigator. Typical of his performance is the work done by him during the past two weeks in the case entitled HARRY D. BECHTEL, FARM CREDIT ACT, in which case Agent DeLOACH and another agent of this office were able to obtain a confession from BECHTEL in the presence of his attorney and obtain information which led to the recovery of \$13,520.. The case was brought to such a speedy conclusion that BECHTEL has been sentenced to 2½ years in prison.

This agent's reports require a minimum amount of supervision and the reports reflect careful thought and skill in preparation. He does an above-average volume of work and always exercises care to organize his work in such a manner as to handle important things first and meet deadlines set by the office and the Bureau.

I have observed that this agent is very effective in his contacts with police officers and I have noticed a distinct improvement in the friendly relations existing between the Akron Police Department, as well as the Sheriff's Office, and the Akron Resident Agency since his assignment there. While this agent has had opportunity to demonstrate supervisory ability, his performance in the administration of his own work definitely indicates he has latent ability. In my opinion, this agent is entitled to a rating of Excellent in Grade CAF 11.

Re: HARRY DAVID BECHTEL
FARM CREDIT ACT

Dear Sir:

I want to direct your attention to the excellent job of interrogation done by Special Agents ALVIN J. SUTTON and CARL H. D. DELOACH of this office in the above-entitled case. BECHTEL, a field representative for the Farm Production Credit Association of Ashland, Ohio, advised his superiors that he had been forced to pay two unknown men \$13,400 from the bank's funds when his two children had been threatened by the unknown individuals.

Questioning of BECHTEL by officials of the Farm Production Credit Association was unproductive. Upon questioning by the above-named agents, BECHTEL not only admitted his guilt but furnished the agents directions which resulted in the recovery of \$13,520. Upon a plea of guilty, BECHTEL was sentenced to 2½ years on January 20, 1947.

The above case is only illustrative of the thoroughness with which these two agents are presently handling their work.

Further evidence of the same excellent performance is indicated in the report of Special Agent ALVIN J. SUTTON, dated February 15, 1947, in the case of EDWARD GEORGE BAUMAN, et al, THEFT FROM INTERSTATE SHIPMENT, in which case thorough interrogation played an important part.

The above is brought to your attention as it is thought you might want to direct a letter of commendation to these agents.

Very truly yours,

E. C. Richardson

There is a vacancy in the Atomic Energy Section which has been created by the transfer of Special Agent Supervisor William C. Sullivan to the new Communist Research Desk. It is being recommended that Special Agent Cartha D. DeLoach be transferred to the Seat of Government to fill this vacancy.

Special Agent DeLoach entered on duty in the Bureau as a Fingerprint Classifier on August 31, 1942 and was appointed to the position of Special Agent on November 14, 1942. He is presently in Grade CAF 12 at \$5905.20 per annum. He was placed on military leave without pay on November 12, 1944 and returned to active duty on April 1, 1946. On May 13, 1946 he was designated Resident Agent at Akron, Ohio. Agent DeLoach went in the military service due to the fact it was not possible for the Bureau to request occupational deferment for him because of his age. It is to be noted that when he accepted the position of Special Agent in the Bureau he had been offered a commission in the Navy and he turned it down. When he applied for the commission thereafter when the Bureau could not request occupational deferment for him, the Navy told him that he had made his own bed and he had to sleep in it. As a consequence De Loach enlisted in the Navy and was honorably discharged as a Specialist, second class.

DeLoach is 26 years old, married, has one child, comes from Claxton, Georgia and his office of preference is Cleveland, Ohio. He has an A.B. Degree from Stetson University and two years' credits toward a law degree. During an inspection of the Cleveland Office in November 1946 SAC McKee, who conducted the inspection, said he was intelligent, interested, had a good appearance and his prospects for development were very good. SAC Richardson on the March 31, 1947 annual efficiency report said he presented a good personal appearance, had a friendly personality, an excellent attitude, was aggressive, ambitious and very cooperative in discharging his duties. He said his work definitely indicated he had latent administrative and supervisory ability. There is attached a permanent brief of Special Agent DeLoach's file.

RECOMMENDATION - It is recommended that Special Agent DeLoach be transferred to the Security Division as a Supervisor in the Atomic Energy Section.

Re: CARTHA D. DeLOACH
Special Agent

Dear Sir:

Reference is made to Bureau letter of May 24, 1947 transferring Agent DeLOACH to the Bureau and requesting advice concerning the date of his departure. I wish to submit the following facts to the Bureau for consideration in connection with this transfer.

Special Agents CARTHA D. DeLOACH and CHESTER J. WILLETT are the two Resident Agents at Akron, Ohio, a city of approximately 330,000 people. For the past several weeks, it has been necessary to have an additional agent working out of Cleveland to handle cases in the Akron territory because of the tremendous increase in Atomic Energy investigations. If the work continues at the present level, it will be necessary to request that an additional Resident Agent be designated for the Akron territory.

Agent WILLETT was designated Resident Agent at Akron on February 17, 1947. While he has exerted every effort to locate living quarters in Akron, he has been unable to do so to date and his family still remains in Cleveland. If Agent DeLOACH is transferred at this time, there will not be a single agent remaining in Akron with living quarters there.

In addition to the above considerations, Agent DeLOACH advises me that his wife is presently taking treatments at the Barberton Clinic near Akron, which treatments will be concluded approximately July 15th. The Clinic is operated by Mrs. DeLOACH's brother-in-law.

In view of the above considerations, it is respectfully requested that Agent DeLOACH's transfer be deferred until July 15th, thus affording additional time for Agent WILLETT to find housing quarters in Akron and the designation of an additional agent to replace Agent DeLOACH in that Resident Agency.

Very truly yours,

It is believed that letters from the Director to the above establishments pointing out Agent DeLoach's connection with this Bureau and the fact that he is a veteran of World War II, having been honorably discharged March 13, 1946, from the U. S. Navy, would be a great help in obtaining living quarters for this Agent.

ACTION:

It is requested that this matter be referred to Mrs. Taisey, Chief Clerk's Office, so the correspondence can be handled accordingly.

CARTHA D. DeLOACH
Special Agent
Special Efficiency Rating

This is a special efficiency rating submitted in connection with the transfer of Special Agent CARTHA D. DeLOACH to the Bureau.

Agent DeLOACH has been a Resident Agent at Akron, Ohio, since his return from military service on May 13, 1946. This agent has a pleasing personality, is aggressive in his approach and is one of the very best police contacts in this area. I have noted that the Akron Police Department has exhibited the most cooperative spirit during recent months. The Chief of Police at Akron has nominated five of his police officers for attendance at the FBI National Academy. One is to be in attendance at the next session and three have already graduated. This fine record is attributable in a large measure to the work of this agent.

This agent has a fine attitude, is untiring in his efforts to do a good job and the results, as a whole, reflect an above-average performance. His reports are carefully prepared, reflecting good organization and skillful investigation. He does an above-average volume of work and is diligent in meeting office and Bureau deadlines.

While this agent has had no opportunity to demonstrate supervisory ability, the administration of his cases by him reflects that he does possess latent ability.

With the enthusiasm for the work possessed by this employee, I feel he will continue to develop. In my opinion, he is presently entitled to a rating of Excellent in Grade CAP-12.

SPECIAL DELIVERY

Director, FBI

Re: RESIDENT AGENTS

Dear Sir:

The Bureau's attention is directed to the fact that Special Agents CARTH A. DeLOACH and WILLIAM V. BROE are presently under transfer to the Seat of Government. It will be noted that both Agents DeLOACH and BROE are Resident Agents in Akron and Youngstown respectively.

Both of these towns are above average in population necessitating an experienced type of agent in handling the investigative work, as well as the contact work incident thereto. The commitments of this office at the present time prevent my assigning any experienced agents now in the headquarters city to fill the vacancies in Akron and Youngstown.

In view of the above, it is urgently requested that immediate consideration be given to the transfer to this division of two experienced Special Agents to be used as Resident Agents at Akron and Youngstown, Ohio.

The Bureau is aware of the fact that in the recent past Special Agents FREDERICK H. SCHMIDT, HOWARD D. SMOOT and EARL E. BROWN, who were utilized in a part-time supervisory capacity in this office, were transferred to the Seat of Government. Also Agents JOSEPH L. FINLINSON, DAVID A. BYRNES and ROBERT D. KINSEY, a Resident Agent at Canton, Ohio, were transferred to other field offices. Replacements to date have been, with one exception, agents from training school. The one exception, JOSEPH B. GARCIA, reported to this office from SIS and has recently been designated Resident Agent at Canton.

Special Agent DeLoach has been assigned as a Supervisor in the Atomic Energy Section since July 14, 1947. He has been supervising employee cases.

Special Agent DeLoach's outstanding characteristic is his excellent attitude. He shows an intense interest in the Bureau's work and makes a serious approach to it. He produces an excellent volume of work.

Special Agent DeLoach presents an excellent appearance, always dresses neatly and I think would make a very favorable impression on persons outside the Bureau. This employee entered on duty 8/31/42 as a Student Fingerprint Classifier and on 12/14/42, he was appointed a Special Agent, grade CAF-9, \$3200 per annum. He was in a military leave without pay status from 11/2/44 until 4/1/46, and was re-allocated to grade CAF-12, \$5905.20 per annum on 2/3/47. As the result of an increase in basic pay and a UPA promotion, his salary is now \$6474.60 per annum.

By memorandum dated 11/24/48, initialled by Mr. Ladd, Mr. Keay recommended that the captioned agent be considered for reallocation to grade CAF-13, pointing out that he has been entirely satisfactory in his liaison contacts with the Central Intelligence Agency and the Navy Department, that he has handled many difficult problems in a competent fashion and has developed very close contacts through whom he has been able to secure all data desired by the Bureau. It was further pointed out that although Agent DeLoach would not normally be eligible for reallocation to CAF-13, the other liaison agents are in that grade.

It is noted that Mr. DeLoach has not been a Special Agent for a period of ten years and that he has been assigned to administrative supervisory duties only since July 1947. In addition, he received a rating of VERY GOOD on his 3/21/49 efficiency report.

RECOMMENDATION: Inasmuch as this agent does not satisfy the requirements for reallocation to grade CAF-13, it is recommended that no further action be taken at this time.

Special Agent DeLoach has been assigned as a Supervisor in the Security Division since July 14, 1947. He has been assigned to full-time liaison duties since April 23, 1948, and had previously assisted in liaison work. He has been a Special Agent since December 14, 1943, and was rated as excellent on his last annual efficiency report.

Special Agent DeLoach has been entirely satisfactory in his liaison contacts with the Central Intelligence Agency and the Navy Department. He has handled many difficult problems in a competent fashion and has developed very close contacts through whom he has been able to secure all data desired by the Bureau.

Special Agent DeLoach has been in Grade CAF-12 since February 3, 1947. He would not normally be eligible for promotion to Grade CAF-13. However, the other liaison agents are in Grade CAF-13.

RECOMMENDATION:

In view of the performance of Special Agent DeLoach as a liaison agent and in view of the responsibilities incidental to this position, I recommend that consideration be given to promoting him to Grade CAF-13.

Special Agent DeLoach has been assigned to full-time liaison duties since April 23, 1948. He maintains liaison with the Central Intelligence Agency and the Office of Naval Intelligence, as well as the Marine Corps and certain other smaller agencies. Since being assigned to liaison duties, he has performed his work in an outstanding manner. He has developed a number of new sources of information and contacts and has unusually close relations with Admiral Inglis, Chief of the Office of Naval Intelligence, and Admiral Hillenkoetter, Director of the Central Intelligence Agency.

As an example of his above average work, he, through Admiral Inglis, arranged that all top secret Navy material must be furnished to Agent DeLoach for screening for matters of interest to the Bureau before it is passed on to the other intelligence agencies. With reference to the Central Intelligence Agency, during the past three weeks, two separate communications have been forwarded to the Director praising the excellent liaison operations of Agent DeLoach.

In view of his excellent performance and his specific accomplishment, I suggest that he be considered for a meritorious raise in pay. It should be noted that all of the other Agents assigned to liaison work are presently in Grade CAF-13, but that Agent DeLoach is in Grade CAF-12 inasmuch as he has not yet fulfilled all the requirements for promotion to Grade 13.

RECOMMENDATION:

It is recommended that DeLoach be given a meritorious raise in pay for his outstanding liaison work.

By memorandum to Mr. Ladd dated 12-21-48, Mr. Keay recommended that Special Agent Cartha D. DeLoach be given a meritorious increase in salary for his outstanding liaison work. Mr. Ladd concurred.

Mr Keay said that Agent DeLoach has been assigned to full time liaison duties since 4-23-48, and maintains liaison with the Central Intelligence Agency and the Office of Naval Intelligence, as well as certain smaller agencies. Since assigned to liaison duties he had performed his work in an outstanding manner and has developed a number of new sources of information and contacts and has unusually close relations with Admiral Inglis, Chief of the Office of Naval Intelligence and Admiral Hillenkoetter, Director of the Central Intelligence Agency.

As an example of his above average work Mr. Keay said that Agent DeLoach, through Admiral Inglis, arranged that all top secret Navy material must be furnished to Agent DeLoach for screening for matters of interest to the Bureau before it is passed on to the other intelligence agencies. With reference to the Central Intelligence Agency, during the past three weeks two separate communications have been forwarded to the Director praising the excellent liaison operations of Agent DeLoach.

Agent DeLoach entered on duty with the Bureau on 8-31-42 as a Student Fingerprint Classifier and was appointed a Special Agent on 12-14-42. He has been assigned to several Field Offices and on 7-14-47 was assigned to the Security Division. He was reallocated to grade CAF 12, \$5905.20 per annum on 2-3-47 and his present salary is \$6474.60 per annum as the result of the increase in basic salaries effective 7-11-48 and an increase under the provisions of the Uniform Promotion Act effective 8-8-48. On 3-31-48 he was rated EXCELLENT by Mr. Keay.

It is to be noted that on 11-24-48 Mr. Keay recommended that he be reallocated to grade CAF 13, pointing out that although he would not normally be eligible for reallocation he was handling liaison work with the Central Intelligence Agency and the Navy Department, and the other liaison agents were in grade CAF 13. He was considered for reallocation on 11-30-48, however, it was recommended and approved that no further action be taken inasmuch as he had not been a Special Agent for 10 years, had been assigned to administrative supervisory duties only since July, 1947, and had received a rating of only Very Good on his 1947 annual efficiency report.
